Family of Dead Man Cannot Get Together on Admin-

QGDEN, Jan. 23 .- Still another petition for letters of administration upon the estate of the late William T. Stoker was filed today in the probate division of the district court, and the members of his family are apparently much at variance over the choice of a suitable person to act in this capacity as ever.

Stoker died at Plain City last October, leaving real estate valued at \$1000 and personal property, consisting of a small stock of general merchandisc, worth \$250. Shortly after his death, widow, Callie Stoker, asked that she be appointed administratrix. A counter petition was filed in reply to this by several of the dead man's children, in which they charged that Mrs. Stoker was incompetent and irresponsible to which they charged that Mrs. Stoker was incompetent and irresponsible to manage the affairs of the estate, and suggesting Daniel Burch as a proper person for the appointment. Mrs. Stoker refused to agree to his appointment, but waived her rights if the appointment be given to James L. Robson. The protesting children agreed to this, but Robson was not willing and refused to act. Now comes Mrs. Stoker with another petition, asking stoker with another petition, asking the court to name E. C. Richardson as the administrator to manage the business affairs left by her busband.
